NEWS FROM NORTHERN!

◆ FROM THE GENERAL MANAGER – Jill Robertson

- ✓ It has been a while since we have sent out a dealer newsletter. We want to thank you for your past business and want you to know that we are committed to be a valuable supplier for you now and in the future. You may have noticed our name change from Northern Pump & Irrigation to Northern Agri-Services. We believe the name change better reflects our expanded product line.
- ✓ While some things have changed at Northern, others haven't-Randy Ratzlaff is available most mornings to help with your special projects. Jim Davenport, Jim Nickolaus, and Chris Friesen (formerly with GSI/DMC) are all available to assist you with your grain storage and handling needs. Ike Anderson is our representative in the Genoa area, and Rod Williams is our representative in the Wahoo area.

◆ NEW PRODUCT CATALOG

- ✓ We have been visiting many of you over the past few months and going over the new catalog with you. We have intentions of visiting all of you, but may have missed you or haven't gotten to your area yet. If you have not gotten a new catalog and would like one now, please contact us via phone or email at jrobertson@northernagriservices.net.

GSI GROUP

- ✓ Enclosed is a list of our product lines. You will find that we handle and/or manufacture many irrigation products not available with other suppliers. Our catalog is one of the most complete irrigation catalogs available, and includes current pricing. We can also help you with many grain handling and storage projects that you may have.
